

# Company Profile

**Building and maintaining  
the industries of the future**

## The company at a glance

Switchgear International is a Qatari owned certified EcoXpert™ Panel Builder and EcoXpert™ Power Services Master by Schneider Electric. The company has been providing solutions since 2006 and is a major contributor in powering the continued development of Qatar. The scale of its 5,700 SQM facility

and its optimized manufacturing technology enables high production capacity that meet customer demand and expectations. We owe our growth and success to our leadership and high-performing team of expert engineers and individual talent that make a meaningful difference to our business.

*Our mission is to deliver the energy solutions and exceptional service to our customers and community efficiently, safely and responsibly.*

## Why Switchgear International

100% Qatari owned

Approved by local government authorities

Certified EcoXpert™ LV Panel Builder by Schneider Electric

Certified EcoXpert™ Power Services Master by Schneider Electric

Proven experience in Qatar since 2006

5,700 SQM manufacturing facility

In-Country Value by Tawteen (score 8.89)

ISO 9001:2015 Quality Management System

ISO 14001:2015 Environmental Management System

ISO 45001:2018 Standard & Occupational Health and Safety Management System

# Our offerings

## Power Distribution Solutions

- ATS Panels
- Feeder Pillars
- Final Distribution Boards
- Junction Boxes
- LV Panels (MDB)
- Sub-main Distribution Boards
- Synchronizing Panels
- Totalizing Busbar Panels

## Power Quality Solutions

- Active Harmonic Filters
- Capacitor Bank
- Custom Solutions
- Detuned Reactors
- Dynamic Voltage Regulator
- Hybrid PF Correction Panel
- Line Filters
- Multi Level AHF
- Servo Stabilizers
- Thyristorized PFC Panels

Switchgear International is authorized by Schneider Electric to design, assemble, test, optimize and install Low voltage switchboards and motor control centers using BlokSeT and Prisma TT systems.

## Power Automation Solutions

- HVAC Control Panels
- Lighting Control Panels
- Motor Control Centers
- PLC & SCADA Automation Panels
- RTU Panels
- Starter Panels (DOL, Star-Delta, VFD, Soft starter)
- Traffic Signal ATS Panel
- All Types of Customized Control Panels

---

## Commitment to compliance

- Compliance with Qatar Local Authority Regulations; KAHRAMAA (QCS 2014), ASHGHAL, Qatar Energy, Supreme Committee for Delivery & Legacy (SC), Hamad Medical Corporation (HMC), Qatar Satellite (Es'hailSat), Qatar Rail, Ministry of Defense, Ministry of Interior, Ministry of Education and Higher education, New Doha Int. Airport (NDIA), Hamad Port (NPP), ISF.
- Type tested and validated products as per IEC Standard 61439 -1 & 2 (DEKRA, ASEFA and ASTA laboratories).
- International compliance / IEC standard 61439-1 & 61439-2

# Service solutions

## Field Services

Including a breadth of services, they are conducted in accordance with the Method Statement approved by the client and ensure proper PPE Safety Measures. **Choose peace of mind and entrust servicing your assets to the experts in power solution design.**

## Service Plans

Our plans ensure a regular check to prevent major break down or interruptions and save the equipment before it reaches the end of its lifecycle. **Improve operational efficiency with services tailored to your specific needs.**

## Power Quality Assessment

Our expert engineers will conduct an Electrical Risk Management Assessment and a Total Energy Management Assessment compliant with International Standards IEEE STD 519-2014. **Mitigate risks with an effective electrical analysis.**

## Maintenance & Support

We offer technical support and on-site expert assistance to repair installed electrical switchgear as well as upgrade, reconfigure and test the automation system. **Ensure power availability and reliability and anticipate any issues.**

## Modernization

With ECOFIT™ LV switchboard modernization solution from Schneider Electric, we will execute an effective upgrade strategy to keep your facility operating at optimum level and help you reduce breakdowns and related maintenance costs. **Extend the life of your assets with minimal shutdown.**

## Digital Transformation

The EcoStruxure™ platform from Schneider Electric puts power and energy intelligence at your fingertips to make facilities safer, more reliable, connected, efficient, and sustainable. **Enable smart operations from preventive to predictive maintenance.**

## A word from the GM

**Imtiyaz Rahiman**  
General Manager

### **We value your business and appreciate your loyalty.**

Our customer's strategy is our guideline in designing solutions that focus on optimization and safety to provide you with highly efficient performance. Our solutions support continuous improvement and efficiency initiatives, we are happy to be your partner in smart operations and sustainability while building and maintaining Qatar's industries of the future.

We understand the importance of keeping your assets in optimal working condition. Our team of engineers and certified technicians is dedicated to helping you get the most out of your assets and ensuring your satisfaction.

I am committed to ensuring that our customers receive the highest level of service and quality products, and look forward to serving you and building a lasting relationship.
